State Highway Commission's Answer

A certified copy of the order of the Montgomery Fiscal Court appropriating one-fourth of the cost of the Winchester pike, not exceeding \$35,000 (a copy of which was published last week), was mailed to the State Highway Commission, and the following letter has been received in regard to same:

June 1st, 1921.
Mr. R. G. Kern, Mt. Sterling, Ky.
Dear sir—I am in receipt of yours of the 31st, ultimo, enclosing copy of letter that Judge Senff has written to the State Highway Commission, and also a certified copy of resolutions passed by your fiscal court on May 31st.

I will have the commission at their regular meeting in June formally approve this proposition and will, at the earliest possible date, have survey made of this project so that you can secure the necessary rights-of-way, etc.

I wish to congratulate you on the voting of your bond issue and to assure you of the hearty co-operation of this department.

Very truly yours,
JOE S. BOGGS,
State Highway Engineer.

Mr. Kern is also in receipt of a letter from State Highway Commissioner H. G. Garrett, congratulating the people of Montgomery county upon the good work of voting the bond issue, and stating that they had made no mistake. Further that the proceeds of the bonds will not be used unless we know that the county gets value received.

That he had requested Mr. Boggs to press this work to completion at as early date as possible.

That he was giving special attention at Washington to road legislation and funds pertaining to Kentucky. And requesting Mr. Kern to be sure and attend the road meeting at Louisville this week, as he wanted the backing of all the counties of the State in this federal aid matter.

Freight Rates Reduced on Coal

Mt. Sterling and Montgomery county citizens will be glad to learn that freight rates on coal to this city will be reduced by the C. & O. R. R. to this city, effective June 16th. The reduction will amount to 35 cents a ton on bituminous coal and 39 cents on canal. This will amount to a large saving to consumers of coal in this section and we are sure the announcement will be gladly received.

Claude Stephens Property Sold

The property of the late Claude P. Stephens was sold at public auction Saturday by John Gibbons, curator of the estate, to the following parties: A brick building on South Maysville, known as the Gibbons property, to Mrs. Adelia Rankin, for \$5,500; The hotting works and the building to O. B. Clark for \$6,800, and the building on East Main street, used as a pool room, to Dr. J. F. Reynolds, for \$3,300. The sale was considered a good one.

Death of Infant

Little Lelia Lee, the six-months-old daughter of Mr. and Mrs. R. L. Gilley, died at the home of her grandparents, Mr. and Mrs. P. J. Shackelford, of the Spencer neighborhood, May 9th. The death was thought to be caused by pneumonia fever. The little body was laid to rest in the family burying ground.

Burgess Johnson Badly Injured

Burgess Johnson, well known colored man of this city, is in a critical condition as a result of an accident which occurred Friday morning while he was hauling coal from Ewington to the pumping station at Howard's Mill. Johnson was riding on the fender of the six-ton truck and when the driver of the machine, in attempting to pass a drove of sheep on the road went into the ditch, dragged Johnson along the barbed wire fence for 15 feet or more. The man was badly cut and was brought to this city in a dying condition and taken to the offices of Dr. McKenna where his wounds were given attention. While still in a very dangerous condition, it is thought he has a chance to recover.

Mt. Sterling Defeats Winchester

At Fair Grounds Park Sunday afternoon the Winchester Regulars were defeated by the Mt. Sterling boys by the score of 10 to 8. Wells, pitching for the locals, played a nice game, but was given ragged support. The Mt. Sterling boys seemed to have had an off day, otherwise the score would have been very one-sided, as the Winchester team failed to show any class at all.

Large Crowds in Attend Revival

The revival in progress by the Presbyterian and Methodist churches opened Sunday with immense audiences. Dr. Thacker, of Norfolk, Va., is an eloquent and cultured speaker. The Harbison singers are delighting the audiences.

The afternoon services at 3 o'clock are being held at the Presbyterian church and the night services at 7:30 at the Methodist church.

Quick Action

On Friday, shortly after the noon hour, John Congleton, negro, entered the offices of the E. T. Reis Company, and seeing no one about pried open the cash drawer, making away with \$27.50 in cash. The theft was discovered a short while later and reported to Chief of Police Tipton, who arrested Congleton as a suspect. The man confessed, went to the place where the money was hidden and restored it, all but a few cents, which he had spent. He was then taken before the grand jury, which was in session, and was indicted, the whole proceedings from the time the robbery was committed to the indictment, occupying only an hour and forty minutes, showing quick work on the part of the Chief.

Tharp Goes With Associated Press

Lester Tharp, until recently manager of the local office of the Western Union Telegraph Co., has accepted a position with the Associated Press and left yesterday for Louisville, where he will remain for about a month before being assigned to a permanent place. Mr. Tharp is considered an excellent operator and it is predicted he will make the Associated Press a valuable man.

GREAT PRIZE RACE JUST FAIRLY STARTED

Contestants Who at First Did Not Think Their Chances Were Worth Anything are Changing Their Minds—Splendid Opportunity for New Candidates to Enter and Win

The great Automobile and Prize Campaign is now fairly started and interest in the big race for glory and prizes is increasing daily. New nominations are still being received each week and several whose names were listed before but who have done no work with the exception of a few coupons clipped from the paper are beginning to awaken to the fact that they have an excellent opportunity to win a splendid prize. So they send for the supplies and commence their campaign.

Easy to Get Votes

It is really surprising to see how easy it is to get votes and subscriptions if you show your friends you really want to win. Almost everybody likes to help a candidate who shows some inclination to help herself, but very few people care to help a contestant who will not make some effort. So if your name is on the list or you have been thinking of entering, do not be afraid to let your friends know that you are going to make an active campaign. There are hundreds and hundreds of people living in this county who have not even been approached by any candidate for their subscription, but who would gladly help a candidate if they were asked.

Good Chance to Win

The big race has been making haste slowly up to the present date, and there is still plenty of time to enter and win one of the valuable prizes. Some of the ultimate winners of the big prize may not even be nominated for two or three weeks yet. Many people like to wait and see who are going to make an active race before sending in their nominations.

Easy to Gain a Lead

As a new subscription for one year now brings 10,800 votes (an old one, 5,400 votes), a contestant could start her campaign now and with one or two subscriptions bring her standing up among the leaders. Many of those who are among the leaders today have only one subscription and a few coupons to their credit.

How to Enter

To enter, simply slip, fill in, and bring or send the nomination found in this issue to the Campaign Manager, Care Advocate, Mt. Sterling, Ky. Supplies and instructions will then be sent the prospective candidate. It costs nothing to enter or try for any of the prizes.

Everybody Wins—No Losers

One good feature about this campaign is that there will be no losers—every candidate gets something for his or her efforts. If you make an active race and fail to win one of the regular prizes, you will be awarded a cash prize, consisting of ten per cent of the subscription money you turn in. Under these liberal arrangements, there is no need for anyone to hesitate about making an active race for a candidate is sure to get some prize for his or her efforts.

250,000 Extra Votes Free

250,000 Extra Votes will be given free on each and every "Club of 15" worth of new subscriptions turned in for or by a candidate before 8 P. M. June 21.

Candidates may secure as many clubs of 15 as they can and on each club 250,000 extra votes will be given free. Only new subscriptions count on this offer.

Send in subscriptions as fast as you receive them, so we can get the paper started and all new subscriptions will apply on this offer. It is not necessary to wait until you get a complete club before sending in your subscriptions.

There will also be twenty prize ballots, the first for 1,000,000 Extra Votes, the second for 950,000 Extra Votes and so on down, given to the twenty candidates who turn in the greatest amount of both old and new subscriptions during the first period. In addition to the two bonus vote

offers above mentioned, Triple Votes—just three times the usual number—will be given on both "old" and "new" subscriptions turned in during the first period and half of the second period.

Votes are given free on back subscriptions and renewals as well as on new subscriptions. Ask for votes when paying subscriptions and vote for your favorite.

Save 50c on each year's subscription by paying during the contest. Remember—during the contest only, we are offering The Advocate at a Special Bargain Rate of \$1.50 a year. After the campaign is over the price will be \$2.00 a year—our regular rate. Better pay two or three years in advance for not only will you save money, but you will also be helping some candidate win a nice prize.

The following stores give votes on purchases of 10c or more. Bryan & Robinson, W. A. Sutton & Son, Redmond's, The Delicious Cafe, Vanarsdell & Co., Hombs & Co., Land & Priest, J. H. Keller and the Tabb Theatre.

Tell your friends to ask for votes at the time of purchase for votes are not given unless they are asked for at the time the purchase is made.

Candidates are not allowed to solicit store votes inside or in front of the stores giving votes. Ask your friends away from the stores—tell them they can get votes for you at the above stores.

The Prizes

Following are the prizes offered for spare time work in the Advocate's big Prize Campaign:

First Grand Prize

An \$875

Painfully Injured In Jump From Car

Mrs. Robt. I. Settles was painfully injured Sunday night in a peculiar manner. She in company with her daughter, Miss Genevieve, Mrs. Robt. Mason, Mrs. Ed. Todd and little son had attended services at the Methodist church and during the meeting the little boy got sleepy and went out and crawled up into the bed of the car and went to sleep. When Mrs. Settles and friends came out they started to take their guests home and shortly after turning the corner at Winn street the little fellow awakened and grabbed Mrs. Settles by the foot, frightening her so that she jumped from the running machine, landing on her head. She was at once removed to the Mary Chiles Hospital, where it was at first feared her skull was fractured, but a later examination proved this not to be the case. While suffering intense pain she is getting along as well as could be expected and it is not thought her injuries will prove serious.

Montgomery County Draft Evaders

The men whose names appear below, who were under the jurisdiction of the local board named, were, according to the public draft records, classified and reported by the draft authorities as deserters from the military service of the United States. Actual expenses not to exceed \$50, to include reimbursement for the amount actually expended, but not to include allowance for services, will be paid to any civil officer or other citizen for the apprehension and delivery to military control of any one of them. If any one of them is apprehended he should be delivered at, and reimbursement for the actual expenses incurred by the arresting officer should be claimed at, the nearest Army Post, Camp, or Station.

Brown Withdraws

To the Democratic voters of Montgomery County: Owing to the fact that I have lately accepted a position, which will keep me away from Mt. Sterling for some months, if not permanently, I have decided to withdraw as a candidate for the Democratic nomination for County Clerk.

In making this decision I want to thank my many friends who have supported me in the race and to assure them that I shall always remember their splendid interest and loyalty.

Sincerely,
M. STANLEY BROWN.

Forger Caught

Monroe Tipton, who attempted to pass a forged check at the A. B. Oldham store in this city Saturday, was captured by Chief of Police J. C. Tipton and lodged in jail here. The check amounted to something over \$7, and was signed with the name of Colonel H. Gatwood. The negro is said to have been guilty of similar offenses in the past.

Cynthiana High School Team Here Friday

The strong baseball team of the Cynthiana High School will cross bats with the Mt. Sterling High School team on the local lot Friday afternoon for the championship of Central Kentucky. These teams have met each other twice this season and have each won a victory. The game Friday afternoon promises to be one of the most hotly contested games of the season and a record-breaking crowd is expected.

Mt. Sterling Boy Wins Senior Contest

In the Senior Oratorical Contest at Kentucky Military Institute last week Geo. Yeaman, son of Dr. and Mrs. M. V. P. Yeaman, came out as victor, winning the gold medal. There were fifty graduates, the largest number in the history of the seventy-five years of the institution.

Increasing Crop Yields Is Best Economy

Better farming to secure larger yields from the fields already being tilled is the one safe and sure way open to every farmer of obtaining feed and grain for his work stock without buying it on the market, according to R. E. Stephenson, crops extension specialist from the College of Agriculture. The first essential in this method is better tillage, which includes early and deep plowing, thorough preparation of the seed bed, and cultivation to kill every weed. Each pound of weeds grown

in the field takes a pound off the crop yield.

The next requisite in securing increased yields is effective fertilization. Stable manure supplemented with acid phosphate, limestone and legumes will accomplish much toward this end in a short time. By practicing such a method as this the farmer with poor land may expect to double the yields of his soil in a few years.

In spite of the fact that many farmers think these methods of securing larger crop yields are expensive, experiments have shown that they are economical and inexpensive. Experiments conducted by the Kentucky Agricultural Experiment Station in which these methods were used, gave increased corn yields at a cost not to exceed \$5.00 per ton. In addition to being an inexpensive method of securing hay and grain for work stock the use of these methods have resulted in soil improvement having a value equal to the profit on the increased production. Results similar to those obtained by the Experiment Station have been obtained by farmers who practiced like methods.

Kentucky Press Meet To be Held at Danville

The annual midsummer meeting of the Kentucky Press Association will be held at Danville, Ky., on Monday, Tuesday and Wednesday, June 6, 7 and 8, 1921. Kentucky College for Women has offered to furnish its beautiful grounds and buildings as headquarters for members of the association and furnish rooms and meals.

The dates of June 6 to 8 were selected on account of the annual commencement exercises of Centre College at that time. In addition to a very interesting and instructive program of the Press Association, Centre College will furnish many attractive features in the way of entertainment to the editors and their families.

The first business session will be called to order Monday afternoon, June 6, at 1:30 o'clock, by the president, R. L. Elkin, editor of the Central Record, Lancaster, Ky., and the address of welcome will be delivered by Hon. John W. Yerkes, one of Danville's most distinguished citizens. The response will be made by Shelton M. Sniffley, editor of the Daily Register, Richmond, Ky. The regular business of the meeting will then be transacted.

Each day's session will be full of interest, many important subjects will be discussed by able speakers, and other interesting features.

There will be plenty of time given to a general discussion of all subjects brought up and many questions not mentioned on the program will come up for consideration. Doubtless many Kentucky editors will be in attendance.

EDUCATIONAL TOOTH TALK—52 Bad Teeth in Winter

It is important that you have your teeth treated before winter sets in. You will be lucky—you know—if you do not have one bad cold before spring; you will be luckier still if that cold does not settle in a decayed tooth, resulting in ulceration, neuritis or other ailments that will give you no end of annoyance and discomfort. Have your teeth treated, NOW, and you will be safe from such a calamity. If you have had that painful experience in former winters you know what it is and this is a reminder to you.—Dr. H. M. Wright, Traders Bank Building.

A REAL MAN

The test of a man is the fight he makes,
The grit that he daily shows,
The way he stands on his feet and takes
Fate's numerous humps and blows.

A coward can smile when there's naught to fear,
When nothing his progress bars,
But it takes a man to stand up and cheer
While some other fellow stuns.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak, I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her.

"I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since. . . I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life."

For over 40 years, thousands of women have used Cardui successfully, in the treatment of many womanly ailments.

If you suffer as these women did, take Cardui. It may help you, too.

THE ONE PER CENT THAT MAKES THE DIFFERENCE

Lips of Millions
In Steamboat Towns**

AN EDITORIAL ON ADVERTISING

IN the early steamboat towns, life was slow, irregular, unprogressive, because everything depended upon the boat, and no one knew when a boat would get in.

On the other hand the railroad towns were wide awake, clocks were in every home, and life went forward with present-time regularity—all because the scheduled arrival and departure of trains set a standard to which the entire town conformed.

The railroad brought progressiveness, made the population, of necessity, regulate their time by the ticking of the clock. The railroad also brought the town close to the outside world, and the outside world and its products closer to the town.

Before the advent of the railroad the business man had little or no competition. People accepted whatever the merchant had to offer, and the merchant, provided he kept his store clean and was behind the counter to tend to customers, was considered a one hundred per cent business man.

But, after the advent of the railroad a great change took place. The man who conducted business in the same old way ceased to be a business man of one hundred per cent perception, and became a business man of ninety-nine per cent perception. The missing one per cent was—

Advertising!

Modern advertising is simply one per cent of business; but how important is that one per cent?

It may be likened to the keystone upon which the entire arch depends.

The roof of a building is only one per cent of that building—the foundation may be built solidly, the walls may be built in strict accordance with the rules of architecture, the decorations and fittings may be of the finest—but if the roof he not placed on the building—the one per cent—everything within that building is doomed to ruin.

And so with the building of a business—if the advertising, the one per cent, is omitted or is faulty in any way, the business is doomed to failure before it starts.

Advertising thus becomes a business builder, because it is a buyer guarantee, and renders of good advertising find it no profitable to them as it is to the 100 per cent merchant and manufacturer who use it.

These 100 per cent business men do not attempt to save money by cutting out advertising, because they know that would be like the man "who stops the clock to save time," and you, the customer, will not attempt to spend your money without first reading advertising, if you want to make every buying dollar do its full duty.

The money which the merchant and manufacturer spend for advertising is money saved for themselves and for their customers. For them it means their names and the names of their goods on the lips of millions of people, hence increased volume of sales; and for the customer lower prices and better quality of merchandise.

Buyers of 100 per cent perception, therefore, see business men of 100 per cent perception more than half way—and thus are both advertisers and readers of advertising benefited.

Yes, it pays to advertise—every successful business man admits it.

And it pays to read advertising—continuously and carefully. Every man and woman who makes a practice of following its buying suggestions from day to day admits it gratefully.

Rural Women to Have Their Own Clubs

Rural women of Kentucky are to have their clubs the same as their sisters in the city if plans being made by the Home Economics Department of the College of Agriculture to organize clubs in all counties having home demonstration agents are carried out. Clubs have already been organized in Calloway, Ballard, Henderson and Muhlenburg counties and plans are going rapidly forward for the organization of similar groups in other counties, according to Miss Mary Miller, field agent in foods from the college.

Calloway county, at the present, leads the other three in the number of women enrolled in rural clubs, 111 women having enrolled in that county. The clubs have been organized in various communities, the number of members varying from 15 to 50 in different communities.

The subjects which the women study are closely related to the problems of the home, according to Miss Miller, and include such things as the care and feeding of children, home sanitation, installment of water systems, sewage disposal, home care of the sick and a study of kitchen efficiency. Under the last subject the women study the selection and arrangement of kitchen equipment as a means of saving steps while performing their duties. A number of other subjects of special interest to rural women are included among the studies by the club members.

Meetings are held in the homes of various members and programs ar-

anged which include talks, demonstrations and music. Workers from the Home Economics Department of the College of Agriculture and local home demonstration agents co-operate with the women in carrying out the program of the meetings.

down 50¢@75¢ per 24 quart crate. Chicago, \$3.50@3.75.

Grain—Chicago July wheat advanced 13¢ during the week, closing at \$1.40 3/4; July corn, 41¢ at 67¢. Rains in Southwest resulted in easier market the first of week, with trading in July restricted by the nervous fluctuation in May future, which closed at \$1.87 on the 31st, the highest point of the season. With uncertainty in May removed, bullish crop reports and good export demand, July wheat trended upward the latter part of week. Ingles' crop report indicates yield of 258 million bushels in six states. Ingles' estimates that while farm reserves are liberal, small holding at terminals and mills will make total carry over much below average. Practically all of Kansas now relieved from drought. Harvest now under way as far north as Oklahoma and about to commence in Kansas. Corn somewhat firmer with wheat but undertone not very strong. Offerings light. In Chicago cash market No. 2 red winter wheat \$1.62; No. 2 hard, \$1.65; No. 3 mixed corn, 66¢; No. 3 yellow corn, 66¢; No. 3 white oats, 41¢. For the week, Minneapolis July wheat up 8 1/4¢, at \$1.38 1/4; Kansas City July 12¢ at \$1.33 1/4; Winnipeg July, 14 3/4¢ at \$1.78.

Cotton—Spot cotton prices declined six points the past week, closing at 11.48¢ per pound. New York July futures down 22 points at 12.67¢.

LOVELAND TO LECTURE AT CHAUTAUQUA

"Perils of Democracy" Will Be His Topic.

Authoritative, Challenging Address Inspiring Sanity and Sturdy Americanism.

"The Perils of Democracy" will be the subject of Dr. Frank L. Loveland's challenging address at the coming Redpath Chautauqua. His lecture is the

DR. FRANK L. LOVELAND.

culmination of thorough investigations, both in America and in Europe.

Into all of his utterances, Doctor Loveland injects an intense patriotism based on a sturdy Americanism and a sanity of vision that are stimulating and refreshing.

Doctor Loveland is so fired with his theme, and is so thoroughly the embodiment of that theme that he stirs the hearts of his hearers to new pride in the past and new faith in the future of America.

Doctor Loveland's lecture fills a genuine need in these days of baffling social and economic unrest.

STRAIGHTEN THAT BENT BACK!

No need to suffer from that tired, dead ache in your back, that lameness, those distressing urinary disorders. Mt. Sterling people have found how to get relief. Follow this Mt. Sterling resident's example.

Quint Stockdale, blacksmith, 44 Queen street, says: "Sometime ago I got down with my back and kidneys. The attack came on quickly after my recovering from the grip and I was about all in. My back got so painful I had to go about all bent over. The kidney secretions passed many times during the day and night and there was a burning sensation. A friend advised me to try Doan's Kidney Pills, and I went to Land & Priest's Drug Store and got a box. After using them I was all right and have felt fine ever since. I am only too glad to endorse Doan's."

Don't belittle a fact—face it.

"I'm sorry, young man," said the druggist, as he eyed the small boy over the counter, "but I can only give you half as much castor oil for a dime as I used to."

The boy blithely handed him the coin.

"I'm not kidding," he remarked. "The stuff's for me."—The Watchman-Examiner.

EARLY ACTION INDICATED

From letters appearing elsewhere in this issue it will be seen that the State Highway Commission intends to keep faith with the voters of Montgomery county and propose to get the Winchester pike under construction at the earliest possible date. Not only have we assurance that the Winchester pike will be constructed in the near future, but also that the Camargo and Owingsville pikes will be built without any unnecessary delay. Montgomery county is indeed fortunate in having a man like Hon. Green Garrett on the Highway Commission, and his services in our behalf will long be remembered by those who know how he has worked that we might have a good system of highways.

A COMMENDABLE REPORT

The report of the Montgomery County Grand Jury, found in this issue, is indeed a document worthy of the gentlemen who composed this body, and should be read carefully and thoughtfully by every citizen of the county. If the people want the laws enforced it is up to us to assist the authorities in every way possible and not by our silence, be a party to assisting those who break the laws of the land. We have heard much favorable comment on the recent grand jury and we feel that they made a record of which every member may well be proud. May we have more such grand juries in the future.

Produce Review

Cream has been marketed in increased quantities the past week. Pastures are in good condition, and indications are that flush production is close at hand. Poultry is moving from the farms quite freely, indicating that the hens have about "laid themselves out." As a consequence markets are on a lower level. Egg receipts have shown further decreases, due to the warm weather, and to the fact that the end of the laying season is in sight. Too much care cannot be given to the marketing of eggs frequently during the warm weather. The Father of What-Will-Be is not What-Ought-To-Be, but What-Has-Been. Consider.—Dr. Frank Crane.

Endorses Salvation

Army Drive for Funds

June 6th, 1921.

Mr. Charles Mohr, representing The Salvation Army, Mt. Sterling.

My dear Mr. Mohr: The Montgomery Post, at its regular meeting yesterday afternoon, examined and approved your credentials and put itself on record as endorsing the campaign for funds which The Salvation Army, through you, is starting in this community.

Every Legionnaire of us, during the World War, received help and comfort and inspiration, in camp and in the field, at home and abroad, from The Salvation Army. We know well the unselfish character of its soldiers of mercy, their far-reaching and invaluable work in peace as in war, their power to touch and heal those wounds of flesh and spirit which are beyond the influence of most other charitable organizations.

"A man may be down, but he's never out." "A woman may have gone astray, but she is never lost!" This, the Salvation Army's battle cry of hope, we of the Montgomery Post lustily echo. And, urging the support of the War Mothers of Montgomery County and our Women's Auxiliary, we wish you the utmost success with your campaign.

Sincerely yours,
LEWIS H. KILPATRICK
Commander, Montgomery Post No. 22, American Legion of Kentucky.

Grand Jury Report

To Hon. H. R. Prewitt, Circuit Judge
Your grand jury for the present term of this court, for final report, says:

We have been in session seven days. Through diligent effort we have returned into open court 58 indictments for various crimes and offenses. During our sittings our attention has been directed to several dastardly crimes, and when the evidence was sufficient to make an indictment, we did so.

Before closing our work we felt it our duty to examine the public buildings and public offices, which we find in good condition and well kept, except that the county jail is in need of a bath-tub for the inmates, and the office windows and women's department of the county jail should be supplied with suitable awnings, thereby making all the rooms more comfortable. We recommend that this be provided at once.

We have made an examination of the county barn and the machinery owned by the county, together with a general investigation of the fiscal affairs of the county. We are deeply gratified that the business of the county is entrusted to men of integrity and untiring in their efforts to promote the county's welfare.

We then proceeded to an examination of the County High School. The superintendency of this school under the management of the County Superintendent, deserves the highest praise and commendation. This means much to the good citizenship of the county, and under such efficient management its value cannot be estimated. It is, therefore, the hope of this body that the present standard will not be permitted to wane or driven into ruthless control.

Our next observation was the hospital, recently established in the city. Through enterprise and public generosity this has been made possible and now stands equipped with everything necessary to bring comfort, medicinal and surgical aid to the suffering. An indispensable need has been supplied in the establishment of this hospital and to the people who gave of their time and their means, all of the people owe a debt of gratitude.

We believe that every citizen has the right to exercise his own judgment when it comes to casting his or her ballot, but the vote of the Road Bond Issue, in our opinion, has reflected great credit upon the judgment of our people. The reconstruction of the proposed roads and the state thereafter to maintain them will enable the fiscal court to expend the sum of money heretofore used on the roads within the road project to be expended upon the tributary roads, ultimately bringing to the county a splendid road system and thereby increasing the property values, business opportunities and contributing largely to school advantages and the general welfare of the county.

We desire to call the attention of the law-abiding citizens of the county to a method whereby they can assist in the enforcement of the criminal laws of the state and especially the prohibition laws and providing against the evils growing out of the same. The grand jury may exhaust all of its powers and the officers lend all the help they may—and we believe this is being done—yet, if the good citizens of the county will make it their business to give the names of witnesses and such information as they may from time to time receive to the attorneys for the commonwealth or to the grand jurors, violations of the law can be very thoroughly investigated. In other words, a citizen who has information or knows of the evils and conceals the truth obstructs the process of the law. A bootlegger or a sympathizer has no place in the maintenance of our government and should not have peace thereunder. The law is adequate if every citizen will do his part, and our investigation has fully convinced us that every citizen is vested with the duty of giving information, instead of criticizing without co-operation, which accomplishes nothing.

We are leaving with the Commonwealth's Attorney to be presented to the next grand jury certain information which will enable them to begin where we have left off, and we feel it will aid them in further investigation.

Respectfully submitted,
W. P. APPERSON,
Foreman.

In order to give each candidate a more equal opportunity, several of the candidates in the second district have been transferred to District No. 1.

If there is any error in the count of any contestant's votes up to the present date, it must be called to the attention of the Campaign Manager before 10 A. M., Thursday. Otherwise the standings as published today must be accepted as correct.

Candidates—Take Notice—Where a subscription is changed from one member of a family to another, it is not considered a "new" subscription and votes will be issued as on an "old" subscription. We have called this ruling to your attention before and still several candidates continue to send in their receipt slips this way. In the future, unless the candidate is more careful to mark the receipt slips in the proper way, the votes on such subscriptions will be cancelled entirely.

Be sure to get the proper name and address of the subscriber and always ask him whether he or some member of his family living at the same house is taking the Advocate. If he is, mark your receipt slip "old" so that the proper credit can be thus given.

There is not one man in a thousand capable of being a successful rogue, while anyone may succeed as an honest man.—E. W. Howe.

Salvation Army Home Service Campaign

Montgomery Post, American Legion, at its meeting held Sunday afternoon, formally indorsed the Salvation Army Home Service Campaign for 1921, soon to be launched. The Army is carrying on campaigns in this state and Ohio, because of the fact that it is in need of funds to carry on its good work, for which it is known, not only in this country, but elsewhere. It helps others, and for that reason the Army needs help. The world-over knows the good work the Army did during the war, of which they are not in the least boastful. However, our noble boys, who fought overseas, among them our lads from good old Montgomery, have returned home and have attested the good work the Blue Bonnet Lassies performed on the battlefields. Any time you mention the name of the Salvation Army the soldier boys will say: "It is a grand organization; they were good to us, never turned us down, but instead, were at our sides when help was most needed, and now is the time for us and the general public to show their gratitude for the Army." Speaking of the campaign, Lewis H. Kilpatrick, commander of the American Legion, said:

"The Community Advisory Board plan another link between the Salvation Army and its work. It brings to the doors of the smaller communities a service proved highly successful in the larger cities, and which is supplemented by Homes and Institutions built as needed through forty years. The movement has been successfully inaugurated in twenty-four states, and by summer will be active in every populous community all over the country.

"The operation of placing trained officers and its institution service at the disposal of every community is effected through this organization. The board are small volunteer organizations of men and women who have distinguished themselves by their community leadership and by the confidence and trust reposed in them by the people at home.

"For this is distinctly a home service, designed to supplement the activities of local welfare agencies and place at their disposal in an organized way the wealth of experience and training possessed by Salvation Army officers.

"There is a mutual interest in the program, and it should be studied by Salvationists as well as by their friends, so that there may be that thorough appreciation of its benefits and understanding of its workings that will add to its already wide usefulness still more of the great increase of successful service and mutual satisfaction that have already resulted from its operation.

"The Salvation Army, therefore, seeks to accomplish two purposes:

"First, it wishes to reduce, if possible, the number of cases which eventually arrive at its doors after long wanderings in devious misfortunes. Happy as are all Salvationists when a desperate sinner is reclaimed, it gives immeasurably greater delight to all concerned to feel that a life has been saved from the wrong path at the beginning of the way. The advantages to the community and to the individual are so obvious as to need no elaboration.

"Second, it wishes to re-establish that home community contacts between the sufferer and the people of the old home town, through which rehabilitation in most classes is best effected.

borne by the communities nearest the point where destitution and misery culminate in the unfortunate becoming a public charge and not—as it should be—borne at these points of origination.

"In other words, the larger cities are now required to raise eighty per cent of the Salvation Army maintenance cost as a protective measure for their own social defense, when it should be recognized that the cost ought to be allocated more justly to each community in the land, as its pro-rata contribution to the great mass of unfortunates who came from the small communities to metropolitan cities each year to hide their condition from those they know.

"This is a period of retrenchment, and the Salvation Army is anxious to retain its expenditures at the lowest possible level and at the same time maintain its efficiency at the highest point."

Harry G. Hoffman, president of the Chamber of Commerce, and a live wire, speaks highly of the Salvation Army for the work accomplished during the war and will likely lend his influence to put the campaign over the top. The field manager of the campaign in Kentucky is C. H. Mohr, who highly praises Mt. Sterling and the American Legion, said:

"Persons from Covington and at other towns spoke glowingly of the patrol duty the American Legion and the police department performed during the conclave." "It was faultless to the letter, and in metropolitan cities could have been no better," said Mohr.

"Such things," said the field manager, "is the best sort of advertising and any time another conclave is given in Mt. Sterling the larger will be the attendance. Mt. Sterling should feel proud of the Legion, not only because they helped win the war, but for the reason that the Legion is able to cope with any situation that may arise."

It is understood that Mohr will arrange to see that some of the money from the campaign will remain in this city.

Judge Kerr to Leave in July

Judge Charles Kerr has tendered to Governor Edwin P. Morrow his resignation as Judge of the Fayette Circuit Court to become effective June 30. Acting Circuit Judge R. C. Stoll has been appointed to fill out the remainder of Judge Kerr's term, which will expire January 1, 1922.

Judge Kerr said he intended to leave with his family for the Panama Canal Zone about July 15th. Judge Kerr was appointed a Federal District Judge for the district, the Senate confirming the nomination made by President Harding. Judge Kerr has been judge of the Circuit Court for the last ten years.

THE DIFFERENCE

A pessimist closes an eye, wrinkles his face, draws up the corner of his mouth and says, "It can't be done." An optimist has a face full of sunshine. He beams on you and says, "It can be done"—and then let's George do it. But a "pep-ti-mist" takes off his hat, rolls up his sleeves, goes to it, and does it.—The Rotarian.

SEEKING

Oh, the years are spent in seeking
And the hopeful heights we scale,
The sorrowful descending
Into Failure's dreary vale.
Through the forests, dense with
thickets,
That are haunted with strange
elves—
Oh, the years we spend in seeking
For we find at last—ourselves.

It requires wisdom to speak, but
to keep silence only requires self-
control.

In connection with the meeting, modern road construction equipment, materials and motor trucks will be displayed in the building. All sessions and entertainments will be open to the public without charge. Persons interested in roads are invited.

ADVICE TO A HUSBAND

Don't kick because you have to button your wife's waist. Be glad your wife has a waist and doubly glad you have a wife to button a waist for. Some men's wives have no waists to button. Some men's wives' waists have no buttons on to button. Some men's wives' waists which have buttons on to button, don't care a button whether they are buttoned or not. Some men don't have any wives with buttons on to button.—Daily News (Baltimore).

Young Jack eyed the new arrival critically for a few moments, then looked up and asked:

"So you're my grandmother, are you?"

"Yes, dear. On your father's side," replied the old lady, with a smile.

"Well, you're on the wrong side; you'll find that out quick enough," remarked Jack, without shifting his gaze.

WHEN GALLI CURCI SANG TO 7

On one occasion Galli Curci, the famous soprano, sang at Panama City. There were only seven persons in the hall. Did the singer slight her work?

Not a bit of it. She gave the seven in the audience the best she had and the next night the hall was crowded. Possibly there is a moral in this for you or somebody else.

Cut Rail Rate

Says Pres. Harding

While railroad executives were pressing before Congress their plea for relief from financial embarrassment, President Harding took direct action to satisfy himself that a revision of freight rates, particularly on necessities, will be a part of the general railway readjustment.

Walking unannounced into the offices of the Interstate Commerce Commission, the President inquired of the commissioners what they were doing toward the relief of shippers who had found some of the present rates unreasonably burdensome.

He was assured that the whole subject was under investigation and that the commission hoped to effect broad revisions through the voluntary action of the roads.

SIDELIGHTS ON THE BIG PRIZE RACE

Have you picked your favorite in the big race yet? If so, pitch right in and help your favorite candidate win, for she needs your support.

If the name of your favorite does not appear, or if your town or your neighborhood is not represented, send in a nomination. You may enter your own name or that of a friend.

It is quite evident from the hundreds of coupons that are sent in to the campaign department, that our subscribers are beginning to take quite an interest in the race.

Step right up—ladies—and vote. You don't need to wait for the men to tell you how or who you shall vote for in this election.

Several new candidates have commenced their campaign in the last week. We are glad to welcome them into the race. There's plenty of room for more candidates—"throw your hat into the ring."

That new \$875 Ford Sedan will be on display in a few days. Then we'll invite you to inspect it. It's the first Grand Prize in this big race, and we are purchasing it from Strother Motors Co., the local agents. As usual there is a big demand for Ford cars this year.

In your paper today there's a 50-vote coupon. Place your favorite's name on it and send it to the campaign manager before date of expiration thereon. Save these coupons every issue.

Remember—in this campaign, you cannot lose—every active candidate wins one of the regular prizes or a cash prize. Under these liberal arrangements, why hesitate about entering?

"Cedar Point"—the big summer resort on Lake Erie, fanned by lake breezes, is certainly a wonderful place to spend a vacation. You can do so at the expense of The Advocate, if you get busy in this campaign.

In Grandmother's Day, Rogers' "1847" brand of silverware was considered the best and still holds that honor. That's why we selected two chests of "1847" brand silverware as the third prize in each district. These prizes as well as the Elgin Watches, were purchased from Bryan & Robinson, the popular local jewelers.

\$1.50 a year—think of it—for a twice-a-week paper. That's the Special Bargain Rate at which we are offering The Advocate during the contest ONLY. After the contest the price will again be \$2.00 a year. Better renew your subscription for two or three years during this contest—you save 50c on each year's subscription if you renew now.

Subscriptions which are changed from one member of the family to another are not considered "new" and votes will be issued as on an "old" subscription.

New candidates will find it easy to gain a lead. A one-year renewal now brings 5,400 votes or a new subscription 10,800 votes. Hence one or two subscriptions will place your standing up among the leaders.

There's \$1,500 in prizes to be distributed. Get busy and win.

FELT LIKE AN IRON BAND AROUND HEAD

Mrs. Osborne Says She Shudders When She Thinks How She Suffered

"For years," said Mrs. V. B. Osborne, of 718 Lancaster avenue, Lexington, Ky., "I have been in a run-down condition; nervous, weak and dizzy. I was actually so nervous that any sudden noise or excitement would produce a palpitation of my heart that frightened me. I absolutely could not climb stairs for to attempt such would thoroughly exhaust me."

"I had nervous headaches and when they came on it seemed that an iron band was drawn tight around my head. I now shudder when I think of these headaches. My stomach was weak and I could not digest the lightest liquid food. Any food of a solid nature caused nausea and the sickening sensation remained for hours."

"My misery was almost unbearable. My sleep was never sound and I was worn out all the time. My condition was indeed a very deplorable one. I finally sought treatment in Cincinnati, but nothing helped me one particle. I was on the verge of giving up in despair when a neighbor pleaded with me to try Tanlac. I obtained a bottle of the medicine and began its use."

"I began improving at once and soon felt my nervousness and dizziness disappearing. Then my headaches left me and I realized my strength had returned. My appetite and digestion improved and I am now so much better in every way. This Tanlac is a wonderful medicine and the only one that ever really helped me. I hope every poor woman who is suffering as I did will try it."

Fitting of Show Sheep Should be Started Now

Kentucky farmers who expect to display sheep at the state and county fairs this fall should begin now to prepare the animals for exhibition, according to suggestions of sheep specialists from the College of Agriculture. It is necessary to feed about three animals for each one which is shown, according to the specialists who suggest that the best individuals be selected and kept in clean pens or pastures. In order to make a good showing the animals should be well-muscled and firmly fleshed when shown. They should be prime about the time of the best show, not too fat or too thin that their backs are but smooth and firm on top.

should be selected," said Prof. L. J. Horlaeker. "It is well to clip the sheep early in order to get a good growth of wool by fair time. They should also be dipped immediately after shearing."

"When the wool has grown out sufficiently it should be carded out straight and smooth, and at least two or three trimmings made previous to the fair. This will keep the wool fibers parallel and the lines of the sheep even. If blankets are used after the last clippings to keep out dirt

care should be taken to see that the sheep do not get too warm. Sheep should be trained to stand correctly and should have plenty of life when showing."

Alumni Banquet

The annual banquet of the High School Alumni Association, given Saturday evening at Knox Hall, was largely attended and was conceded to be one of the most successful in the history of the organization. The hall was beautifully decorated for the occasion in the colors of white and gold. Baskets of coreopsis blooms adorned the tables and made into garlands, were wound around the white draped pillars of the banquet hall. Beautiful music was furnished throughout the evening by Mrs. Emilee Hibler Reid, pianist; Miss Evelyn Prewitt, violinist, and Billy Reid with drum and bells. The menu was served by Coleman and May, and was a "feast fit for the Gods," consisting of old ham, potato chips, peas in patties, beaten biseuit, pickles, olives, frozen salad, iced tea, brick cream, cake and mints.

The entertainment features of the banquet were in charge of the Class of 1917, and an excellent program was given, including a one-act play by Miss Henrietta Greene and Messrs. John Samuels and John Walsh and vocal solos by Miss Martha M. Robinson and G. B. Senff. While the banquet was in full swing a telegram arrived from our beloved former superintendent, Prof. W. O. Hopper, and read as follows:

"Greetings and best wishes for the Alumni Association. Mr. and Mrs. W. O. Hopper."

The Class of 1921 was initiated into the association with fitting ceremonies, being invited into the dressing rooms, where the girls were made to don bungalow aprons and sunbonnets, and the boys overalls and farm hats, and then to march around the hall, much to the merriment of the others present.

Officers for the coming year were elected as follows: S. C. Sharp, president; Miss Margaret Newmeyer, vice president, and Miss Elizabeth McCoun, secretary and treasurer.

For the banquet of next year the program will be in charge of the Board of Education at the request of Mr. L. T. Chiles. Those attending the banquet Saturday evening were:

Ball Game for Benefit of Salvation Army

Edward Flood, head of the All-American Princess Maids, who are showing here, has arranged a game of baseball between the show people and ball players for Thursday afternoon at the Fair Grounds for the benefit of the Salvation Army. The show people will appear in different costumes and will give the public a good time with jokes and the like.

Mr. Young, of the Fair Association, donated the grounds for the game because of the cause it is intended for.

A Correction

In our last Tuesday's issue we stated that the accident in which William Wells barely escaped with

his life occurred at the Spencer crossing. We were misinformed, as a matter of fact the accident occurred at the Owingsville crossing, and we gladly make the correction, as we feel that an injustice was done Mr. William Messer, who so carefully guards the Spencer crossing.

The 1921 girl may not be an old maid at 18, but she's shopworn.

RELIGIOUS

There will be no prayer service at the Baptist church Wednesday evening, owing to the absence of the pastor.

The world is new every day, but the same old critics are on the job.
